Dear Harold,

Sepia article great! Picture "recalled" very striking!

Have no doubt Tiger Popularization would help. Perhaps best approach would be an article on CIA Domestic Intelligence Operations in a media style.

This would, if published (and good presentation would mean publication) do the following: Open doors for an advance on Tiger. Broaden Your Reputation away from "assassination author".

The time is ripe for Tiger as a Commercial

property.

An article would provide a lovely but it must be on the level of The American Counter-Revolution. Sensational, alarming, factual but easy to grasp.

There is a slight prostitution involved but as per ~~Sade~~ Sartre dirty hands can do clean work and this issue must be presented to all.

Population is essential.

Best Wishes,

E.
